

COVID-19 ADVISORY

As advised by the Federal Government of Australia, the construction industry including maintenance and related trades is open for business, and are able to continue to provide services such as building, renovation, maintenance, installations, landscaping, quoting, measuring, etc.

1. When carrying out work at your premises, our business is preventing the spread of COVID19 by:

- Practicing social distancing indoors and outdoors
- Minimising the numbers of people required at your premises
- Implementing good hygiene practices
- Ensuring workers who are unwell stay at home
- Following the quarantine and self-isolation rules if required
- Making arrangements for contactless payment
- Keeping up to date with information and changes to the Governments COVID 19 requirements.

2. When visiting our showroom and production site:

While we do our part in making sure that door handles, hallways, display area, and offices are clean and disinfected, sanitizers are made available and are highly encouraged to be used by customers and employees upon entering and exiting the premises.

3. Booking a virtual/video call design consultation:

This refers to a scheduled video call discussion of your kitchen design with any of our designers via video conferencing applications such as Skype, Facebook Messenger, Instagram, or any application possible. This will allow you to have a tour of our showroom and view the design we come up with for your dream kitchen without being on-site.

If you have any questions or concerns, please reach out to us. Our priority is your safety and the safety of our workers in these unprecedented times.
